This book is about my soulful experiences that I was able to experience as I walked along the three different countries' Caminos. First of all, it's about the relationships that were developed along the trail and many of the personal heart warming experiences that people shared with me as we were strolling along together. Some were sad but many were humorous and all were enjoyable. Secondly, i've included some of the legends and stories that have grown up around different villages over the many years of pilgrimage. Finally, I have written down some of my own musings that came to mind in solitary meditation after an encounter with some interesting fellow pilgrim or it may have been when I was just communicating with the splendors of Mother Nature. As an extra, I have included our little adventures that my wife Lyla and I may have taken before we started hiking or at the end of each hiking journey. I have also written up some advice on what to take on your very first hike. I gave my own opinion on what I thought were the merits of hiking the three different Caminos. If you decide to go, I wish you some fine adventures like I have had. Buen Camino.
