## **Global Security Watch - Venezuela (Praeger Security International)** Daniel Charles Hellinger

The growing importance of Venezuela in the global oil market along with the controversial nature of its leadership provoke concern among some world powers—especially the United States, whose international policies have been heavily criticized by Venezuelan president Hugo Chavez. This critical look at American/Venezuelan relations presents perceptions held by each government of the other and examines the sources of tensions—and points of confluence—between the two countries.

*Global Security Watch—Venezuela* traces the political relations between the United States and Venezuela from the early roots based in Pan Americanism to the domestic and foreign policies of the Chavez regime, including petro-diplomacy. This book provides a serious examination of the allegations about Venezuelan involvement in the drug trade, terrorism, and intervention; the view that the unilateralism of the United States threatens world peace; and the future of relations between the two countries.
