Presented herein are parts 3 and 4 of a collection of substantial papers presented by distinguished speakers at the conference 'Geometric Analysis: Present and Future,' held at Harvard University in 2008. Among the speakers were Edward Witten, Yum-Tong Siu, Richard Hamilton, Nigel Hitchin, Blaine Lawson, Andrew Strominger, Cumrun Vafa, Wilfried Schmid, Victor Guillemin, Ngaiming Mok, and Demetrios Christodoulou. Also included is an overview of the works of Shing-Tung Yau. This volume serves well as both a reference and up-to-date summary of geometric analysis and its applications to many different areas of mathematics.

From reader reviews:

Brent Cook:

The e-book with title Geometry and Analysis, No. 2 (volume 18 of the Advanced Lectures in Mathematics series) contains a lot of information that you can study it. You can get a lot of help after read this book. This kind of book exist new information the information that exist in this e-book represented the condition of the world currently. That is important to yo7u to know how the improvement of the world. This book will bring you with new era of the glowbal growth. You can read the e-book with your smart phone, so you can read the idea anywhere you want.

Bessie Kraft:

Do you have something that that suits you such as book? The book lovers usually prefer to select book like comic, quick story and the biggest one is novel. Now, why not seeking Geometry and Analysis, No. 2 (volume 18 of the Advanced Lectures in Mathematics series) that give your enjoyment preference will be satisfied by reading this book. Reading practice all over the world can be said as the means for people to know world considerably better then how they react in the direction of the world. It can't be claimed constantly that reading behavior only for the geeky man but for all of you who wants to end up being success person. So , for all you who want to start studying as your good habit, it is possible to pick Geometry and Analysis, No. 2 (volume 18 of the Advanced Lectures in Mathematics series) become your own starter.

Robert Jackson:

Your reading sixth sense will not betray an individual, why because this Geometry and Analysis, No. 2 (volume 18 of the Advanced Lectures in Mathematics series) e-book written by well-known writer whose to say well how to make book that may be understand by anyone who also read the book. Written inside good manner for you, leaking every ideas and creating skill only for eliminate your hunger then you still hesitation Geometry and Analysis, No. 2 (volume 18 of the Advanced Lectures in Mathematics series) as good book not merely by the cover but also from the content. This is one book that can break don't ascertain book by its protect, so do you still needing one more sixth sense to pick this!? Oh come on your examining sixth sense already told you so why you have to listening to an additional sixth sense.

Curtis Waters:

What is your hobby? Have you heard in which question when you got college students? We believe that that issue was given by teacher on their students. Many kinds of hobby, Everyone has different hobby. And you also know that little person including reading or as examining become their hobby. You must know that reading is very important as well as book as to be the point. Book is important thing to provide you knowledge, except your own teacher or lecturer. You discover good news or update with regards to something by book. Amount types of books that can you take to be your object. One of them is Geometry and Analysis, No. 2 (volume 18 of the Advanced Lectures in Mathematics series).
