The 72 names of God are universal powers that exist without and pass within and through us as energies of light. To attune ourselves with these universal forces is to unleash their powers from within us. There are powers within the soul, the mind, the spirit within us, and within our subconscious mind that can be unleashed by praying appropriately with these 72 names of God. In this book I have written out these names such that they can be pronounced easily in the English alphabets. I have shown various techniques of prayer using these 72 names of God so that their powers which are within them, can be released from within us. Strength, joy, peace of mind, good health, and good feelings all come from within. Every sound has a unique vibration and effects the human nervous system, especially the hormones and the spinal cord that holds the body structure together.
