In a physical examination, there are many things that your healthcare provider can find out by using their hands to feel (palpate), stethoscope and ears to listen, and eyes to see. Findings that are present on the physical exam may by themselves diagnose, or be helpful to diagnose, many diseases. Approaching each system from a developmental perspective, this course addresses each specific system divided into four major components: interviewing techniques, anatomy and physiology, examination techniques, and normal variations and common abnormal findings all detailing how to approach each age group. Learn efficiently through complete a self contained, self paced learning system. Instructor is a professional speaker and program is recorded in a studio No Filler. 5 Hours, 5 Audio CDs, Plays in all cd players
