Cropping Systems: Trends and Advances Anil Shrestha

Learn the fundamentals as well as in-depth details of agricultural cropping systems from around the globe!

Cropping Systems: Trends and Advances is a comprehensive review of past and present research efforts in North America and other parts of the world. It brings together biological, economic, sociological, and technical aspects of cropping systems in a single source to provide a reference unlike any other on the subject that is available today. This valuable book also points to future directions that cropping systems research needs to take in order to increase sustainable agriculture and feed the growing world population. Charts, tables, and illustrations make the information easy to access and understand.

An ideal textbook for graduate and undergraduate courses in agronomy as well as a comprehensive reference for professionals involved in cropping systems research, Cropping Systems: Trends and Advances is a book you'll refer to again and again. Topics covered in this well-referenced and thoughtfully indexed book include:

- emerging trends in cropping systems research
- designing resource-efficient cropping systems
- soil quality and fertility
- tillage
- root dynamics
- water quality concerns
- nitrogen use efficiency
- precision agriculture
- agricultural biotechnology
- weed biology and management
- integrated pest management
- the important role that cover crops can play
- key indicators for assessing nitrogen use efficiency in cereal-based agroecosystems
- the implications of elevated carbon dioxide-induced changes in agroecosystem productivity
- and a great deal more!

From reader reviews:

Shelia Coggins:

The reserve with title Cropping Systems: Trends and Advances has a lot of information that you can study it. You can get a lot of gain after read this book. This book exist new information the information that exist in this book represented the condition of the world right now. That is important to yo7u to know how the improvement of the world. That book will bring you inside new era of the the positive effect. You can read the e-book in your smart phone, so you can read the idea anywhere you want.

Stephan Partin:

The reason why? Because this Cropping Systems: Trends and Advances is an unordinary book that the inside of the guide waiting for you to snap the idea but latter it will zap you with the secret that inside. Reading this book next to it was fantastic author who have write the book in such awesome way makes the content on the inside easier to understand, entertaining means but still convey the meaning entirely. So , it is good for you because of not hesitating having this ever again or you going to regret it. This excellent book will give you a lot of benefits than the other book have got such as help improving your expertise and your critical thinking technique. So , still want to postpone having that book? If I had been you I will go to the publication store hurriedly.

Teresa Raap:

Your reading 6th sense will not betray you actually, why because this Cropping Systems: Trends and Advances e-book written by well-known writer whose to say well how to make book that can be understand by anyone who else read the book. Written with good manner for you, still dripping wet every ideas and writing skill only for eliminate your personal hunger then you still hesitation Cropping Systems: Trends and Advances as good book but not only by the cover but also by content. This is one e-book that can break don't determine book by its cover, so do you still needing an additional sixth sense to pick this particular!? Oh come on your reading sixth sense already told you so why you have to listening to an additional sixth sense.

Monique Hightower:

Are you kind of hectic person, only have 10 as well as 15 minute in your morning to upgrading your mind expertise or thinking skill also analytical thinking? Then you have problem with the book in comparison with can satisfy your short period of time to read it because pretty much everything time you only find reserve that need more time to be study. Cropping Systems: Trends and Advances can be your answer since it can be read by an individual who have those short extra time problems.
