Future Communication Technology (Set) (Wit Transactions on Information and Communication Technologies) G. Lee

This 2-volume set contains the proceedings of the 2013 International Conference on Communication Technology (ICCT2013) held in Singapore. Focusing on both theory and applications the books mainly cover the topic of communication technology. They bring together the work of researchers, scientists and engineers to promote new ideas and research results about all aspects of communications and to discuss the practical challenges encountered and the solutions adopted. Topics covered relate to: Computer Networks and Communications; Network and Information Security; Internet, Networking and Application; Big Data Processing and Applications.
