30 Simple Energy Things You Can Do to Save the Earth

30 Simple Energy Things You Can Do to Save the Earth

If each U.S. household increased the energy efficiency of our major appliances by 10 to 30%, we'd reduce the demand for electricity by the equivalent of 25 large power plants. Substituting a compact fluorescent light for a traditional bulb will keep a half-ton of CO₂ out of the atmosphere over the life of the bulb. If we all installed 'low-flow' shower heads, we could save billions of gallons of water every year...without ever noticing it. If every American family planted just one tree, over a billion pounds of 'greenhouse gases' would be removed from the atmosphere every year. It all begins with YOU, & the things you do every day at home. 30 Simple Things gives you a clear, entertaining idea of how you can save energy... & help protect the Earth.
