Building Virtual Pentesting Labs for Advanced Penetration Testing

Kevin Cardwell

Building Virtual Pentesting Labs for Advanced Penetration Testing Kevin Cardwell
Build intricate virtual architecture to practice any penetration testing technique virtually

About This Book

- Build and enhance your existing pentesting methods and skills
- Get a solid methodology and approach to testing
- Step-by-step tutorial helping you build complex virtual architecture

Who This Book Is For

If you are a penetration tester, security consultant, security test engineer, or analyst who wants to practice and perfect penetration testing skills by building virtual pentesting labs in varying industry scenarios, this is the book for you. This book is ideal if you want to build and enhance your existing pentesting methods and skills. Basic knowledge of network security features is expected along with web application testing experience.

What You Will Learn

- Build routers, firewalls, and web servers to hone your pentesting skills
- Deploy and then find the weaknesses in a firewall architecture
- Construct a layered architecture and perform a systematic process and methodology to use for conducting an external test
- Get introduced to several of the different security testing methodologies
- Design monitored environments and evade them
- Create complex architecture
- Bypass antivirus and other protection
- Practice methods of evasion against today's top defenses
- Leverage the client configuration

In Detail

A penetration test, also known as pentest, is a method of assessing computer and network security by replicating an attack on a computer system or network from the outside world and internal threats. With the increase of advanced hackers and threats to our virtual world, pentesting is an absolute necessity.

Building Virtual Pentesting Labs for Advanced Penetration Testing will teach you how to build your own labs and give you a proven process to test these labs; a process that is currently used in industry by global pentesting teams. You will also learn a systematic approach to professional security testing, building routers, firewalls, and web servers to hone your pentesting skills.

From reader reviews:

Miriam Normandin:

Why don't make it to be your habit? Right now, try to ready your time to do the important take action, like looking for your favorite guide and reading a guide. Beside you can solve your short lived problem; you can add your knowledge by the publication entitled Building Virtual Pentesting Labs for Advanced Penetration Testing. Try to make book Building Virtual Pentesting Labs for Advanced Penetration Testing as your close friend. It means that it can to get your friend when you truly feel alone and beside that of course make you smarter than before. Yeah, it is very fortuned in your case. The book makes you more confidence because you can know every thing by the book. So , we should make new experience as well as knowledge with this book.

Wayne Hankinson:

What do you concentrate on book? It is just for students because they're still students or that for all people in the world, the actual best subject for that? Only you can be answered for that problem above. Every person has several personality and hobby per other. Don't to be pushed someone or something that they don't desire do that. You must know how great and important the book Building Virtual Pentesting Labs for Advanced Penetration Testing. All type of book would you see on many methods. You can look for the internet sources or other social media.

Diana Johnson:

Now a day individuals who Living in the era exactly where everything reachable by connect with the internet and the resources in it can be true or not need people to be aware of each information they get. How individuals to be smart in obtaining any information nowadays? Of course the solution is reading a book. Studying a book can help people out of this uncertainty Information mainly this Building Virtual Pentesting Labs for Advanced Penetration Testing book because this book offers you rich information and knowledge. Of course the info in this book hundred per cent guarantees there is no doubt in it everbody knows.

Catharine Rosol:

Reading can called head hangout, why? Because when you are reading a book specifically book entitled Building Virtual Pentesting Labs for Advanced Penetration Testing your brain will drift away trough every dimension, wandering in every single aspect that maybe not known for but surely might be your mind friends. Imaging every word written in a book then become one contact form conclusion and explanation this maybe you never get before. The Building Virtual Pentesting Labs for Advanced Penetration Testing giving you one more experience more than blown away your mind but also giving you useful details for your better life in this particular era. So now let us present to you the relaxing pattern is your body and mind will be pleased when you are finished looking at it, like winning a sport. Do you want to try this extraordinary spending spare time activity?
