Comprehensive Stress Management Jerrold Greenberg

Comprehensive Stress Management empowers students to learn what stress is, evaluate their level of stress, and apply to their own lives the tools and skills to manage that stress. The book examines a variety of topics relevant to college students such as intrapersonal and interpersonal stressors, physiological reactions to stress, spirituality and stress, occupational stress, and family stress. Lab Assessments at the conclusion of each chapter help students relate what they have learned to their personal lives by encouraging them to identify specific attitudes, behaviors, and coping skills as well as target areas for improvement. The 13th edition incorporates many changes and updates while still retaining the content and features valued by instructors and students over the previous editions.

Instructors and students can now access their course content through the Connect digital learning platform by purchasing either standalone Connect access or a bundle of print and Connect access. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following:

- SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content.
- Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course.
- Progress dashboards that quickly show how you are performing on your assignments and tips for improvement.
- The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping.

Complete system requirements to use Connect can be found here:
