If you like 'The Time Traveller's Wife,' then you'll love this credible, romantic time travel adventure set in North East England... Have you ever wondered what makes you feel uneasy when you're alone? A cold patch of air; a presence you can't explain? Simon Benson has. Air-conditioning engineer Simon, is single, dissatisfied, and has been letting life pass him by. So when his student friends John and Emily ask for his help with their Human Aspect Scanner – a machine that can capture glimpses of the past through harnessing powerful residual energy – he jumps at the chance to be part of something exciting. At first the trio revel in their discovery, snooping around Durham's historical streets, but when they unearth an inexplicable old photograph of Simon, enjoying life in 1912, they soon realise they've created more mysteries than they've solved. For Simon, however, there are only two questions he wants answering – who is the beautiful girl kissing him in the photograph, and will he ever meet her?
