*Instructional leadership begins in the classroom*

This book reveals the experiences of school leaders and teachers who have discovered that meaningful school improvement does not necessarily come from the top—it comes from effective teaching and leaders who support it. Based on eight fundamental tenets, the text shows how to bridge the teaching gap between the kinds of teaching needed for the 21st century and that which is found in most schools. Special features include:

- An interactive writing style that “coaches” educators
- Powerful “what to do” and “how to do it” tools
- Case illustrations and success stories
- Protocols for leading collaborative inquiry
