The Internet of Things: Do-It-Yourself at Home Projects for Arduino, Raspberry Pi and BeagleBone Black Donald Norris

Build and program projects that tap into the Internet of Things (IoT) using Arduino, Raspberry Pi, and BeagleBone Black!

This innovative guide gets you started right away working with the most popular processing platforms, wireless communication technologies, the Cloud, and a variety of sensors. You'll learn how to take advantage of the utility and versatility of the IoT and connect devices and systems to the Internet using sensors. Each project features a list of the tools and components, how-to explanations with photos and illustrations, and complete programming code. All projects can be modified and expanded, so you can build on your skills.

The Internet of Things: DIY Projects with Arduino, Raspberry Pi, and BeagleBone Black

- Covers the basics of Java, C#, Python, JavaScript, and other programming languages used in the projects
- Shows you how to use IBM's Net Beans IDE and the Eclipse IDE
- Explains how to set up small-scale networks to connect the projects to the Internet
- Includes essential tips for setting up and using a MySQL database.

The fun, DIY projects in the book include:

- Raspberry Pi home temperature measurements
- Raspberry Pi surveillance webcams

- Raspberry Pi home weather station
- Arduino garage door controller
- Arduino irrigation controller
- Arduino outdoor lighting controller
- Beaglebone message panel
- Beaglebone remote control SDR
- Machine-to-machine demonstration project

From reader reviews:

Tiara Garcia:

Nowadays reading books be a little more than want or need but also be a life style. This reading habit give you lot of advantages. Advantages you got of course the knowledge the particular information inside the book that improve your knowledge and information. The info you get based on what kind of publication you read, if you want send more knowledge just go with education and learning books but if you want really feel happy read one together with theme for entertaining for instance comic or novel. Typically the The Internet of Things: Do-It-Yourself at Home Projects for Arduino, Raspberry Pi and BeagleBone Black is kind of publication which is giving the reader unstable experience.

Daniel Padilla:

Reading a e-book can be one of a lot of task that everyone in the world really likes. Do you like reading book thus. There are a lot of reasons why people like it. First reading a reserve will give you a lot of new data. When you read a guide you will get new information because book is one of various ways to share the information or their idea. Second, reading through a book will make anyone more imaginative. When you reading through a book especially tale fantasy book the author will bring you to imagine the story how the people do it anything. Third, you could share your knowledge to other people. When you read this The Internet of Things: Do-It-Yourself at Home Projects for Arduino, Raspberry Pi and BeagleBone Black, you are able to tells your family, friends and soon about yours book. Your knowledge can inspire the mediocre, make them reading a book.

Linda Banks:

A lot of people always spent their very own free time to vacation or even go to the outside with them friends and family or their friend. Were you aware? Many a lot of people spent that they free time just watching TV, or playing video games all day long. If you would like try to find a new activity that is look different you can read the book. It is really fun for you. If you enjoy the book that you read you can spent all day every day to reading a book. The book The Internet of Things: Do-It-Yourself at Home Projects for Arduino, Raspberry Pi and BeagleBone Black it is very good to read. There are a lot of people who recommended this book. We were holding enjoying reading this book. If you did not have enough space to bring this book you can buy the e-book. You can m0ore simply to read this book from the smart phone. The price is not too expensive but this book provides high quality.

Marsha Gleason:

This The Internet of Things: Do-It-Yourself at Home Projects for Arduino, Raspberry Pi and BeagleBone Black is new way for you who has intense curiosity to look for some information because it relief your hunger details. Getting deeper you in it getting knowledge more you know or you who still having little digest in reading this The Internet of Things: Do-It-Yourself at Home Projects for Arduino, Raspberry Pi and

BeagleBone Black can be the light food for yourself because the information inside this particular book is easy to get through anyone. These books build itself in the form that is certainly reachable by anyone, yeah I mean in the e-book type. People who think that in publication form make them feel tired even dizzy this book is the answer. So there is absolutely no in reading a guide especially this one. You can find actually looking for. It should be here for an individual. So , don't miss that! Just read this e-book variety for your better life and knowledge.
