Peopleware: Productive Projects and Teams (3rd Edition) Tom DeMarco, Tim Lister

"**Peopleware** has long been one of my two favorite books on software engineering. Its underlying strength is its base of immense real experience, much of it quantified. Many, many varied projects have been reflected on and distilled; but what we are given is not just lifeless distillate, but vivid examples from which we share the authors' inductions. Their premise is right: most software project problems are sociological, not technological. The insights on team jelling and work environment have changed my thinking and teaching. The third edition adds strength to strength."
— Frederick P. Brooks, Jr., Kenan Professor of Computer Science, University of North Carolina at Chapel Hill, Author of The Mythical Man-Month and The Design of Design

"**Peopleware** is the one book that everyone who runs a software team needs to read and reread once a year. In the quarter century since the first edition appeared, it has become more important, not less, to think about the social and human issues in software develop¿ment. This is the only way we're going to make more humane, productive workplaces. Buy it, read it, and keep a stock on hand in the office supply closet."
—Joel Spolsky, Co-founder, Stack Overflow

"When a book about a field as volatile as software design and use extends to a third edition, you can be sure that the authors write of deep principle, of the fundamental causes for what we readers experience, and not of the surface that everyone recognizes. And to bring people, actual human beings, into the mix! How excellent. How rare. The authors have made this third edition, with its additions, entirely terrific."
—Lee Devin and Rob Austin, Co-authors of The Soul of Design and Artful Making

From reader reviews:

Jorge Hinkley:

In this 21st millennium, people become competitive in most way. By being competitive right now, people have do something to make these individuals survives, being in the middle of the particular crowded place and notice by surrounding.
