The Allied Air War and Urban Memory: The Legacy of Strategic Bombing in Germany (Studies in the Social and Cultural History of Modern Warfare) Jörg Arnold

The cultural legacy of the air war on Germany is explored in this comparative study of two bombed cities from different sides of the subsequently divided nation. Contrary to what is often assumed, Allied bombing left a lasting imprint on German society, spawning vibrant memory cultures that can be traced from the 1940s to the present. While the death of half a million civilians and the destruction of much of Germany's urban landscape provided 'usable' rallying points in the great political confrontations of the day, the cataclysms were above all remembered on a local level, in the very spaces that had been hit by the bombs and transformed beyond recognition. The author investigates how lived experience in the shadow of Nazism and war was translated into cultural memory by local communities in Kassel and Magdeburg struggling to find ways of coming to terms with catastrophic events unprecedented in living memory.
