Elegant Complexity is the first critical work to provide detailed and thorough commentary on each of the 192 sections of David Foster Wallace's masterful Infinite Jest. A chronology at the end of the study reorders each section of the novel into a sequential timeline that orients the reader and that could be used to support a chronological reading of the novel. Other helpful reference materials include a thematic outline, more chronologies, a map of one the novel's settings, lists of characters grouped by association, and an indexed list of references. Elegant Complexity orients the reader at the beginning of each section and keeps commentary separate for those readers who only want orientation. Carlisle explains the novel's complex plot threads (and discrepancies) with expert insight and clear commentary. The book is 99% spoiler-free for first-time readers of Infinite Jest.
