Geotechnical Engineering For Disaster Mitigation And Rehabilitation And Highway Engineering 2011: Geotechnical and Highway Engineering -- Practical Applications, Challenges and Opportunities

S P R Wardani, Jian Chu, S C Robert Lo, Susumu Iai, K K Phoon

This proceedings contains 89 papers from 25 countries and regions, including 14 keynote lectures and 17 invited lectures, presented at the Third International Conference on Geotechnical Engineering for Disaster Mitigation and Rehabilitation (3ICGEDMAR 2011) together with the Fifth International Conference on Geotechnical & Highway Engineering (5ICGHE), which was held in Semarang, Indonesia, from 18 to 20 May 2011. This is the third conference in the GEDMAR conference series. The first was held in Singapore from 12 to 13 December 2005 and the second in Nanjing, China, from 30 May to 2 June 2008.

The proceedings is divided into three sections: keynote papers, invited papers and conference papers under which there are six sub-sections: Case Studies on Recent Disasters; Soil Behaviours and Mechanisms for Hazard Analysis; Disaster Mitigation and Rehabilitation Techniques; Risk Analysis and Geohazard Assessment; Innovation Foundations for Rail, Highway, and Embankments; and Slope Failures and Remedial Measures.

The conference is held under the auspices of the International Society for Soil Mechanics and Geotechnical Engineering (ISSMGE) Technical Committee TC-303: Coastal and River Disaster Mitigation and Rehabilitation, TC-203: Earthquake Geotechnical Engineering and Associated Problems, TC-302: Forensic Geotechnical Engineering, TC-304: Engineering Practice of Risk Assessment and Management, TC-213: Geotechnics of Soil Erosion, TC-202: Transportation Geotechnics, TC-211: Ground Improvement, Southeast Asian Geotechnical Society (SEAGS), Association of Geotechnical Societies in Southeast Asia (AGSSEA), and Road Engineering Association of Asia & Australasia (REAAA).

Readership: Researchers, academics, practitioners (civil and structural engineering), educators, graduate students.

From reader reviews:

Lucinda Smith:

The book Geotechnical Engineering For Disaster Mitigation And Rehabilitation And Highway Engineering 2011: Geotechnical and Highway Engineering -- Practical Applications, Challenges and Opportunities can give more knowledge and also the precise product information about everything you want. Why then must we leave a good thing like a book Geotechnical Engineering For Disaster Mitigation And Rehabilitation And Highway Engineering 2011: Geotechnical and Highway Engineering -- Practical Applications, Challenges and Opportunities? A few of you have a different opinion about book. But one aim that will book can give many info for us. It is absolutely correct. Right now, try to closer with your book. Knowledge or information that you take for that, you may give for each other; you are able to share all of these. Book Geotechnical Engineering For Disaster Mitigation And Rehabilitation And Highway Engineering 2011: Geotechnical and Highway Engineering -- Practical Applications, Challenges and Opportunities has simple shape but the truth is know: it has great and massive function for you. You can look the enormous world by available and read a book. So it is very wonderful.

Ronald Ybarra:

The book Geotechnical Engineering For Disaster Mitigation And Rehabilitation And Highway Engineering 2011: Geotechnical and Highway Engineering -- Practical Applications, Challenges and Opportunities has a lot of information on it. So when you check out this book you can get a lot of profit. The book was published by the very famous author. The writer makes some research before write this book. This specific book very easy to read you can obtain the point easily after looking over this book.

Darlene Heckart:

People live in this new day time of lifestyle always make an effort to and must have the extra time or they will get wide range of stress from both daily life and work. So , whenever we ask do people have spare time, we will say absolutely of course. People is human not just a robot. Then we ask again, what kind of activity do you have when the spare time coming to anyone of course your answer will unlimited right. Then ever try this one, reading textbooks. It can be your alternative in spending your spare time, the particular book you have read is usually Geotechnical Engineering For Disaster Mitigation And Rehabilitation And Highway Engineering 2011: Geotechnical and Highway Engineering -- Practical Applications, Challenges and Opportunities.

Brenda Luna:

You can spend your free time you just read this book this e-book. This Geotechnical Engineering For Disaster Mitigation And Rehabilitation And Highway Engineering 2011: Geotechnical and Highway

Engineering -- Practical Applications, Challenges and Opportunities is simple to deliver you can read it in the playground, in the beach, train in addition to soon. If you did not possess much space to bring the printed book, you can buy the particular e-book. It is make you easier to read it. You can save the book in your smart phone. So there are a lot of benefits that you will get when one buys this book.
