**How often have you heard, "Nobody makes money from self-publishing"?** It's coming from the mouths of authors, agents, publishers and editors out of ignorance... *or malice*.

If you're looking to jump-start your career in writing, though, self-publishing can be an absolute Godsend if you're just an average person. **The problem is, the information you need is scattered all over the internet.** And frankly, the money is best in erotica, and money is ultimately the bottom line between you and writing full-time.

Not only do you need to know how to write well, you also need to know graphic design. You have to be well versed in the kinks you want to write, too.

**Do you know:**

- What readers will want when they pick up a billionaire story?
- What kind of kinks go well with werewolf or vampire stories?

If not, this book will shine a light on those topics.

This book is a short, but basically complete, introduction to the field of self-publishing erotica--though other writers may find some things of value, as well. Do you love writing? Are you scared of spending months on a novel only to not have it sell? Erotic shorts are the perfect place to start.

**When you're ready to make a change and really jump head first into the vast ocean of self-publishing, make sure you're carrying this book as your lifesaver!**
